

MANDREL BUILT HOSE FOR SPECIALIZED INDUSTRIES AND APPLICATIONS.

## CRP Industrial Silicone and PTFE Hose Configurations

- **CRP Silicone** – Translucent smooth cover with stainless steel helices and synthetic plies of reinforcement. Platinum cured silicone hose produced in an ISO class 8 cleanroom. Also available without a wire helix.
- **CRP ATC PTFE** – White PTFE tube combined with CRP's blue ATC cover, which is cleanable, non-marking, chemical and microbe resistant.
- **CRP PTFE Sil** – White PTFE tube with white silicone cover. Stainless steel helices and synthetic plies of reinforcement. Platinum cured in an ISO class 8 cleanroom.

*CRP Industrial ATC hose also comes with food grade EPDM, Nitrile, Butyl, and UHMW tubes*

CRP Industrial Specialty Process Hoses meet many industry standards including: FDA 21 CFR 177.2600, USP Class IV, 1907/2006/CE (REACH), and ISO 10993 Sections 5, 10, 11:2009. Contact CRP Industrial for specific details.
